

sanova

functional office furniture

sanova

Ergonomic and multifunctional office chairs are manufactured in Turkey for the first time by our company, using advanced technologies from our 41 years of experience. Our company, which follows the principle of manufacturing ergonomic products, aims to create a comfortable working environment by prioritizing body, waist and neck supports in the products. In accordance with these goals, elastic, highly flexible, dirt-repellent and not easily deformable mesh fabrics are preferred in our products. Our products with high quality standards are manufactured in our integrated factories and shaped by the design and R&D studies developed by our experts and presented to our valued customers.

The **Sanova** Design team designs long-lasting products with an understanding of the sensitivity to human health and the environment, with detailed solutions that are geared towards maximum efficiency, comfort and ease of business life in offices. **Sanova** pursues the principle of providing a sincere, reliable and professional service in the production of office furniture by ensuring customer satisfaction in sales and after-sales and turning this satisfaction into solid friendships.

Products that focus on ecology, aesthetics, ergonomics and functionality and that use environmentally friendly materials are characterized by their individual ease of use. The products are suitable for every person of different height and body type. It comes in a position where it can be easily used, helping you to protect your physical health in long-term use. With its rich color options, it enhances the elegance and comfort in your office.

41 yıllık tecrübemiz ile ileri teknolojiler kullanılarak ergonomik ve çok fonksiyonlu ofis koltukları Türkiye de ilk defa firmamız tarafından üretilmeye başlanmıştır. Ergonomik ürünler üretilmeyi ilke edinen firmamız, ürünlerde gövde, bel ve boyun desteğini ön planda tutarak konforlu bir çalışma ortamı sağlamayı hedeflemektedir. Bu hedefler doğrultusunda ürünlerimizde elastik, esneklik oranı yüksek, kir tutmayan ve kolay deforme olmayan mesh kumaşlar tercih edilmiştir. Yüksek kalite standartlarına uygun ürünlerimiz entegre tesislerimizde üretilip uzman kadromuzun sürekli geliştirdiği tasarım ve arge çalışmaları ile şekillenerek siz değerli müşterilerimizin beğenisine sunulmaktadır.

Sanova Tasarım ekibi, ofislerde maksimum verimliliği, konforu ve iş hayatını kolaylaştırmayı hedefleyen detay çözümleriyle, insan sağlığına ve çevreye karşı duyarlı olma anlayışıyla uzun ömürlü ürünler tasarlamaktadır. **Sanova** ofis mobilyaları üretiminde, satış ve satış sonrasında müşteri memnuniyetini sağlayarak ve bu memnuniyeti sağlam dostluklara çevirerek samimi, güvenilir ve profesyonel bir hizmet sunmayı ilke edinmektedir.

Ekoloji kavramları, estetik, ergonomi ve işlevselliğin ön planda tutulduğu, çevreci materyallerin kullanıldığı ürünler, kişiye özel kullanım kolaylıkları ile göze çarpar. Ürünler, farklı boy ve vücut yapısındaki her insanın rahatlıkla kullanabileceği konuma gelir, uzun süreli kullanımlarda fiziksel sağlığınıza korumanıza yardımcı olur. Zengin renk seçenekleri ile ofislerinizdeki şıklığa ve konfora değer katar.

chair ergonomics and health relation ergonomiye uygun olmayan koltuklar

- Heart and breathing complaints, stomach diseases, back pain, shoulder complaints and blood circulation defects in the legs may occur in sitting jobs.
- It can cause back, shoulder, neck and arm discomfort.
- The discs between the vertebrae push on the unsupported spine and weaken.
- Since the shoulder muscles cannot get the support they want from the lower back muscles, they have to balance the entire weight of the arms, causing burning and holding back.
- The main ergonomic risks during sitting are;
 - Long-term static postures
 - Direct loading on the spine
 - The effect of the loads on the spine is folded due to flattening lower back vertebrae and incorrect posture
 - Excessive pressure on skin and infrastructure tissues

- Oturarak yapılan işlerde kalp ve nefes şikâyetleri, mide hastalıkları, sırt ağrıları, omuz şikâyetleri ve bacaklarda kan dolaşımı kusurları ortaya çıkabilmektedir.
- Sırt, omuz, boyun ve kol rahatsızlıklarına neden olabilmektedir.
- Omurların arasındaki diskler, desteklenmeyen omurga üzerine gelir ve zayıflar.
- Omuz kasları bel kaslarından istedikleri desteği alamadıklarından dolayı kolların tüm ağırlığını dengelemek zorunda kalarak yanma ve tutulma hissedilmesine neden olurlar.
- Oturma esnasındaki temel ergonomik riskler şunlardır;
 - Uzun süreli statik postürler
 - Omurga üzerine direk yüklenme
 - Omurga üzerine verilen yüklerin etkisinin düzleşen alt sırt omurları ve yanlış duruş şekilleri sebebiyle katlanması
 - Deri ve altyapı dokuları üzerinde oluşan fazla basınç

sanova armchairs sanova koltukları

- The ergonomic shape of the backrest and seat of the Sanova armchairs is designed in accordance with the anatomical human body shape. Weights are applied steadily to the surface area of the headrest and seat.
- The materials used in the upholstery have properties that are breathable and can dissipate body heat.
- The synchronous mechanism, which ensures the movement of the body thanks to the movements of the seat and back, helps to accelerate blood flow and relax the body.
- Feature settings available in our products;
 - Adjustable headrest
 - Adjustable back
 - Adjustable lumbar support
 - Adjustable seat depth
 - Adjustable seat height
 - Adjustable 3D armrest (it has up-down, forward-back and right-left movements.)

- Sanova koltuklarının arkalık ve oturma yerinin ergonomik şekli, anatomik insan vücut şekline uygun olarak tasarlanmıştır. Ağırlıklar, kafalık ve oturma yerinin yüzey alanına sabit bir şekilde uygulanır.
- Döşemede kullanılan malzemeler, nefes alabilen, vücut ısını dağıtabilen özelliklere sahiptir.
- Oturak ve sırt hareketleri sayesinde vücudun hareketini sağlayan senkron mekanizma kan dolaşımının hızlanmasına vücudun rahatlamasına yardımcı olur.
- Ürünlerimizde mevcut olan fonksiyonel ayarlar;
 - Ayarlanabilir başlık
 - Ayarlanabilir arkalık
 - Ayarlanabilir bel desteği
 - Ayarlanabilir oturak derinliği
 - Ayarlanabilir oturak yüksekliği
 - Ayarlanabilir 3D kolçak (Yukarı-aşağı, ileri-geri ve sağ-sol hareketlerine sahip)

**Perfect design thought
down to the least detail...**

**En ince ayrıntısına kadar
düşünülmüş mükemmel
tasarım...**

The new series Aura was designed by Sanova design team and taking into account the results of the surveys, the needs of the users and the functions that should be in a office chair.

Sanova tasarım ekibi; yapmış olduğu anket sonuçlarını, kullanıcıların gereksinimlerini ve bir çalışma koltuğunda bulunması gereken fonksiyonları göz önünde bulundurarak, yeni serisi Aura'yı tasarlamıştır.

The adjustable support in the back supports the S-shape of the spine and helps maintain healthy blood flow throughout the body.

Arkalıktaki ayarlanabilen destek, omurganın S şeklini destekler ve vücuttaki sağlıklı kan akışının korunmasına yardımcı olur.
